COVID-19 Vaccine Inventory & Allocation Survey

As an update to last week's member email, LADPH has created a new [survey link](https://www.cognitoforms.com/LACDPH/COVID19VaccineInventoryAllocationSurvey) to be filled out every Monday. LADPH recognizes that some of the data in this survey is already reported through other sources but unfortunately these state and federal systems do not provide access to LA County.

The link to the survey can be found here:

<https://www.cognitoforms.com/LACDPH/COVID19VaccineInventoryAllocationSurvey>

Today's survey response is due by 11:59PM tonight Monday 1/25/21.

Survey response is needed for each COVID Org ID, but not necessary to submit for each location ID (i.e., if you are a clinic with 3 sites and registered as separate Org IDs, then 3 responses are needed, one for each. If the 3 sites are locations within one Org ID then one response is needed).

This survey is necessary for all FQHCs and clinics who have previously received any vaccines doses. Survey response is required to receive allocations, but survey response does not guarantee allocation either. Vaccine supply shortages are likely to persist until April. LADPH will send a partner planning guide later today that describes how allocations will work going forward and how organizations can shift to this new model.
