

Health IT Summit 2021

Transforming Care Through Health IT

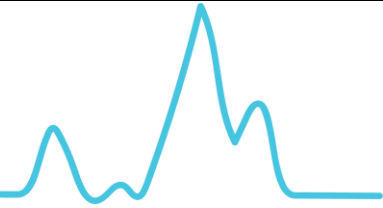

Agenda - Friday, December 10, 2021

| | |
|---|--|
| <p>9:00 – 9:05 am</p> | <p>Welcome & Opening Remarks Nina Vaccaro, COO, CCALAC</p> |
| <p>9:05 – 10:05 am</p> | <p>Keynote Speaker: The Cybersecurity Mindset – Peace of Mind is Priceless</p> <p>Presenter: Dr. Christian Dameff, Assistant Professor of Emergency Medicine, Biomedical Informatics, and Computer Science at the University of California San Diego; and Medical Director of Cybersecurity at UC San Diego Health</p> <p>Dr. Christian Dameff is an assistant professor of Emergency Medicine, Biomedical Informatics, and Computer Science (affiliate) at the University of California San Diego. At UCSD Health he was hired as the nation’s first Medical Director of Cybersecurity. Published clinical works include post cardiac arrest care including therapeutic hypothermia, novel drug targets for acute myocardial infarction patients, ventricular fibrillation waveform analysis, cardiopulmonary resuscitation (CPR) quality and optimization, dispatch assisted CPR, teletoxicology, clinical applications of wearables, and electronic health records.</p> <p>Dr. Dameff is also a hacker and security researcher interested in the intersection of healthcare, patient safety, and cybersecurity. He has spoken at some of the world’s most prominent cybersecurity forums including DEFCON, RSA, Blackhat, Derbycon, BSides, and is one of the cofounders of the CyberMed Summit, a novel multidisciplinary conference with emphasis on medical device and infrastructure cybersecurity. Published cybersecurity topics include hacking 911 systems, HL7 messaging vulnerabilities, and malware.</p> |
| <p>BREAK 10:05 am – 10:15 am</p> | |
| <p>10:15 – 11:05 am</p> | <p>SDoH Data Integration: An End-to-End Solution</p> <p>Presenters:</p> <p>Jessica King, MPH, RDN, Associate Director of Health Education, Northeast Valley Health Corporation</p> <p>Angel Alvarado, Sr. Engineering Manager, Alluma</p> <p>Sara Bajor, Lead Software Developer, Alluma</p> <p>Luis Arteaga, CEO, CareOptimize MX</p> <p>This session will present an innovative approach to utilizing the PRAPARE template and SMS text messaging to generate resources that address social needs (e.g., food banks, housing, etc.) and integrate the data back into the electronic health record.</p> |
| <p>11:05 – 11:55 am</p> | <p>Data Sharing is Caring for your Patients</p> <p>Presenter: Jim Willis, System Leader - Health Information Exchange & Interoperability, Dignity Health/ CommonSpirit Health</p> <p>The pandemic has highlighted just how crucial it is to exchange timely patient data and have it available at the point of care. Join this session to learn how health centers and hospitals can improve their access and sharing of data to achieve more comprehensive patient care.</p> |

Health IT Summit 2021

Transforming Care Through Health IT

LUNCH 11:55 am – 12:55 pm

| | |
|-----------------|--|
| 12:55 – 1:55 pm | <p><u>Spotlight Keynote Speaker: The Changing Role of the CIO</u></p> <p><u>Presenter:</u> Isaiah Nathaniel, CPHIMS, CIO, Delaware Valley Community Health, Inc.</p> <p>Isaiah Nathaniel is a successful business executive, entrepreneur, film producer, and director who is the Chief Information Officer of Delaware Valley Community Health, Inc. Isaiah was recently awarded the 2021 Health Information and Management Systems Society (HIMSS) Changemaker award. He also received the 2019 Minority Business Leader award from the Philadelphia Business Journal and is an official member of the invitation only Forbes® Technology Council.</p> <p>Traditionally a CIO would be in charge of IT Management within an organization. Today, technology has become vital to running any business and effects everyone in the organization. Attend this session to learn how a modern-day CIO needs to join the ranks of the other organizational leadership and have a seat at the table when making strategic business decisions.</p> |
| 1:55 – 2:45 pm | <p><u>Novel Care Models: Improving Patient Care, Lowering Costs</u></p> <p><u>Presenter:</u> Martina Janeckova, CEO and Founder, Lara Health, Inc.</p> <p>Recent advancements in healthcare technologies (remote patient monitoring, telehealth, and patient portals) offer an effective way to care for patients, at least in theory. Hear about new care models for your care teams to consider and learn how to evaluate their benefits in order to choose a solution that will lower both cost and administrative burden while improving health outcomes at scale.</p> |

BREAK 2:45 pm – 2:55 pm

| | |
|----------------|---|
| 2:55 – 4:15 pm | <p><u>Panel: The RPM Journey – How to Implement for Success!</u></p> <p><u>Presenters:</u></p> <p>Huzefa Dossaji, CEO, Vivyo Group and Anish Patel, CMO, Greater Baden Medical Services Patrice Little, QI Director, and Heidi Lennartz, COO, San Fernando Community Health Center Sandra Jaime, Health IT Manager, St. John’s Well Child and Family Center</p> <p><u>Moderator:</u></p> <p>Diana Camacho, MPH, Senior Program Officer for Improving Access, California Health Care Foundation</p> <p>Remote patient monitoring has become a vital tool for virtual care. Join this panel to learn how three FQHCs launched their RPM Programs and share their best practices and lessons learned. This session will cover RPM program planning, enrollment, and monitoring, along with how to measure success and create a sustainable RPM program.</p> |
| 4:15 – 4:30 pm | <p><u>Closing Remarks</u></p> <p>Aisha Iqbal, Director of Health IT Programs, CCALAC</p> |
