

New LANES Community Referral for Tobacco

Help your patient to stop tobacco use or exposure! The LANES Patient Synopsis has a Community Referral to Kick It California (formerly known as the California Smokers' Helpline, 1800-NO-BUTTS). After getting verbal consent from the patient, here's how any staff can submit an order for your patient to be called:

Step 1: Click on the Community Referral icon (upper left, LANES Patient Synopsis)

Step 2: Update patient contact info if desired in the open window (already auto-populated)

Step 3: Follow-up on Kick It California service results in the "Specialty Referral" tile (COMING SOON)

FAQ

1. What is Kick It California (formerly The California Smokers' Helpline)?

Kick It California provides free evidence-based help to stop tobacco products, including vaping. The referred patient can expect a call from a counselor in 1-2 days. Services include free educational materials, telephone counseling to set up a plan to quit, and special offers for free nicotine patches. Parental permission is not needed for 13 and up. Language lines include Spanish, Cantonese, Mandarin, Vietnamese, and Korean.

For more information, go to nobutts.org or kickitca.org. Text ("Quit Smoking" or "Quit Vaping" to 66819), NoButts app, and Alexa services are available. Kick It California is operated by University of California, San Diego and funded by the California Department of Public Health. Please contact csh-support@ucsd.edu for questions.

2. What will Kick It California do after I submit a referral?

The Kick It California coach will conduct an intake and assess if the patient wants counseling to be conducted then or scheduled for a future visit. In Phase 2 of this referral order, a summary of the Kick It California service will be sent back through LANES to the Specialty Referral order box. This will include standardized messages, such as "Patient could not be contacted" or "Patient completed counseling."
