

CCALAC NextGen User Collaborative

1st Thursday of the month from 10 am – 12 pm via Webinar

Forum for discussion, training, negotiation, and collaboration between participating CCALAC members and NextGen.

- Meet and network with peers to share best practices and lessons learned.
- Attend the full day training for advanced clinical users.
- Enhance utilization of NextGen and receive free templates.
- Discuss topics such as KBM and UD3 Upgrades; Patient Portal; Advanced Audit Utility Tool; Uniform Data System (UDS) Reporting Tool; Clinical Care Guidelines; and more!
- Offered to health centers using NextGen for an annual fee.

Group Chairs

Stephen Gutierrez, CIO, Northeast Valley Health Corporation

“There is so much to know about using and supporting NextGen. When we are able to come together and discuss features, challenges, concerns, etc., I am able to bring new ideas back to our clinic, implement new features, or avoid any problems.”

Jason Hua, CIO, Venice Community Clinic

“Do you sometimes feel overwhelmed by the complexity of your NextGen system or do you sometimes feel frustrated by some of the issues that you feel are unique to just your NextGen system? Since joining the CCALAC NextGen User Collaborative, I have had the opportunity to connect with other community clinics in a sharing environment to help me turn my unique NextGen issues into common solutions. Now I don’t feel like I’m alone on an island.”

CCALAC Staff:

Aisha Iqbal, Director of HIT

Candice Rowland, HIT Specialist

Nothabo Ndlovu, HIT Administrative Assistant
