

APLA Health's mission is to achieve health care equity and promote well-being for the LGBT and other underserved communities and people living with and affected by HIV. We are a nonprofit, federally qualified health center serving more than 14,000 people annually. We provide 20 different services from 15 locations throughout Los Angeles County, including: medical, dental, and behavioral health care; PrEP counseling and management; health education and HIV prevention; and STD screening and treatment. For people living with HIV, we offer housing support; benefits counseling; home health care; and the Vance North Necessities of Life Program food pantries; among several other critically needed services. Additionally, we are leaders in advocating for policy and legislation that positively impacts the LGBT and HIV communities, provide capacity-building assistance to health departments across the country, and conduct community-based research on issues affecting the communities we serve. For more information, please visit us at aplahealth.org.

Patient Navigator (Long Beach)

POSITION SUMMARY:

Under the direction of the Quality Improvement Manager, the patient navigator will be responsible for leading quality and process improvement projects in an effort to increase clinical performance measures. The Patient Navigator is a non-clinical team member who is skilled at engaging patients over the phone and in-person and working with clinical care teams to enhance care in selected areas. The essential functions of this position include but are not limited to the following:

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Provides support in the organization's quality improvement efforts and performance improvement activities which includes: data monitoring, and facilitation of quality improvement projects.
- Works with key stakeholders from the clinical care team to improve our performance on various UDS, HEDIS, and other metrics/quality indicators.
- Serves as the quality improvement team lead and is responsible for communicating progress of quality improvement projects to the clinical care team.
- Collects and analyzes data to identify opportunities, and/or barriers.
- Works alongside key stakeholders from the clinical care team to implement interventions clinic-wide that address problem areas.
- Tracks, measures, and maintains comprehensive project documentation for all assigned projects and submits regular progress reports to the Quality Improvement Manager.
- Tracks certain diagnostic tests and referrals relating to metrics/quality indicators; including contacting other clinics for records and locating past medical records to enter them correctly in the electronic health record.
- Travel to clinics and sites of APLA Health & Wellness to participate in various Quality Improvement activities and meetings.
- Protects patients' rights by maintaining strictest confidentiality of personal and financial information; adhering to all HIPAA guidelines/regulations.
- Maintains operations by following policies and procedures; reporting needed changes.
- Assist in maintaining office and building fire/safety regulations.
- Ensures clinic flow by being an active team member.
- Practice active listening, empathy and cultural humility with patients to schedule appointments and address challenges of patients at-risk of missing appointments.
- Outreach to patients and assist patients with accessing additional resources and/or clinical services, including transportation and interpretation services.
- Coordinate appointments with health care providers to ensure timely delivery of diagnostic and treatment.

OTHER DUTIES MAY BE ASSIGNED TO MEET BUSINESS NEEDS.

REQUIREMENTS:

Training and Experience:

High school diploma or GED required and at least two (2) years of experience working in a medical office or similar environment preferred. Must be extremely organized and detail oriented and have excellent communication skills, project management skills, and strong telephone etiquette. Must have a courteous, professional nature and be customer service oriented. Strong computer skills required.

Knowledge of:

Demonstrate an understanding of culturally specific challenges and disparities facing patients. Efficient in demonstrating essential job related functions and workplace etiquette. Knowledge of HEDIS measures and HRSA standards strongly preferred. Knowledge of basic public health principles, managed care, health care delivery systems and communities served, specifically, but not limited to LGBT and individuals living with and/or at-risk of HIV. Basic understanding of health risk factors, prevention techniques, and healthy lifestyles. Knowledge of electronic health records - eClinicalWorks preferred. Knowledgeable about insurance plans, Medi-Cal/Medicare. Strong working knowledge of Microsoft Office programs.

Ability to:

Apply critical thinking and problem solving skills. Must be able to identify mandatory reporting situations. Able to work effectively within a team, demonstrate initiative, follow-through and accountability. Must be able to set goals and develop work plans. Able to maintain a strict discipline in time management with a focus on quality.

WORKING CONDITIONS/PHYSICAL REQUIREMENTS:

This is primarily an office position that requires only occasional bending, reaching, stooping, lifting and moving of office materials weighing 25 pounds or less. The position requires daily use of a personal computer and requires entering, viewing, and revising text and graphics on the computer terminal and on paper.

SPECIAL REQUIREMENTS:

Must possess a valid California driver's license; proof of auto liability insurance; and have the use of a personal vehicle for work related purposes.

Equal Opportunity Employer: minority/female/disability/veteran.
