

About Us:

The Saban Community Clinic was founded on the principle that healthcare is a right, not a privilege. Our clinics provide Whole Person Care to everyone regardless of income or immigration status. This includes medical, behavioral health and dental care.

For over 50 years, we have been redefining community health through a systemic approach that creates a lasting impact on individual lives and creates healthier communities.

Position Summary: The Outreach Medical Team Clinician Position is divided as 50% project outreach and 50% Clinic time, depending on Saban Community Clinic's needs.

May be a Nurse Practitioner, Physician Assistant or M.D.

Open to part time, full time or per diem.

Summary of the Outreach Medical Team project:

Saban will provide medical services with a team (see staffing below) directly to residents of Schrader Bridge Housing on-site, with additional care via telehealth. In addition to medical services, a Case Manager will be available to assist patients with follow up telehealth visits, care coordination, and other social service needs

Along with primary care medical visits, the team will assist in performing laboratory tests, medication dispensing (and delivery), external referrals to further care as needed, and transportation to care.

Proper personal protective equipment (PPE) will always be provided and worn by all Saban project team members while providing medical care on site at PRK hotels/motels

Project Clinician will be responsible for:

Providing medical services, including a focus on chronic conditions such as hypertension and diabetes to patients experiencing homelessness who are temporarily housed in local supportive housing facilities

Performing in-person medical visits to patients at housing sites approximately two days a week

Providing telephonic and video visits to patients at housing sites for care and follow-up as indicated

Working with a project outreach team consisting of Advanced Practice Clinician, Medical Assistant also providing front office support, and a patient eligibility specialist

Essential Functions:

Patient Services: Ensures that patients/clients receive quality, timely, professional care services in accordance with Clinic's mission and values.

Provides primary care services to Clinic patients including:

Conducting physical examinations

Ordering and interpreting the results of laboratory, x-ray and other tests;

Determining and implementing courses of treatment,

Providing and monitoring the results of treatment; and adjusting as needed

Provides health education and instruction in the areas of health/sickness, personal hygiene, nutrition, sexual behaviors, and medication usage as applicable.

Proactively assists the patient and family through all facets of accessing care at the Clinic and elsewhere, serving as a resource to resolve patient and family concerns.

Participates in the improving the quality of care including participation in peer review, setting clinical standards for medical support staff, and monitoring quality of medical services to patients.

Meets and consults with other staff providers on an on-going, regular basis to discuss clinical concerns and opportunities for care improvement. Additionally, consults with physician on duty as necessary and refer patients to appropriate resources.

Participates in team meetings and provides input on general operational issues to improve the quality of health care delivery including the Clinic's Best Practices team to create and monitor protocols/guidelines for patient care and uniformity of forms.

Participates in the development and implementation of new Clinic programs; may assume leadership for new health care initiatives and projects.

Identifies training needs of staff and collaborates others to develop and implement appropriate training programs and opportunities to ensure a skilled and knowledgeable staff.
