

APLAHealth

APLA Health's mission is to achieve health care equity and promote well-being for the LGBT and other underserved communities and people living with and affected by HIV. We are a nonprofit, federally qualified health center serving more than 14,000 people annually. We provide 20 different services from 15 locations throughout Los Angeles County, including: medical, dental, and behavioral health care; PrEP counseling and management; health education and HIV prevention; and STD screening and treatment. For people living with HIV, we offer housing support; benefits counseling; home health care; and the Vance North Necessities of Life Program food pantries; among several other critically needed services. Additionally, we are leaders in advocating for policy and legislation that positively impacts the LGBT and HIV communities, provide capacity-building assistance to health departments across the country, and conduct community-based research on issues affecting the communities we serve. For more information, please visit us at aplahealth.org.

POSITION SUMMARY:

Under the direction of the Site Medical Director, the nurse practitioner will provide primary medical care services, focusing on sexual health services.

ESSENTIAL DUTIES AND RESPONSIBILITIES:

- Provide evaluation, treatment and prevention services for sexually transmitted infections (STIs) in accordance with APLA Health protocols.
- Provide HIV preventative care, Pre-exposure Prophylaxis (PrEP) and Post-exposure Prophylaxis (PEP), according to APLA Health protocols.
- Provide general primary medical care for adult patients at APLA Health, as time permits, at its medical clinic in Long Beach and other clinical sites as needed.
- Conduct histories and physical exams on patients
- Order, interpret and evaluate diagnostic tests to identify and assess patients' clinical problems and health care needs
- Establish treatment plans; and administers, furnishes or recommends medications
- Document gathered information in medical record, as required by policies, and complete charting within the timeframe set by clinic policy.
- Provide health maintenance and preventative care according to quality evidence-based standards and protocols related to contractual obligations
- Participate in peer chart review and quality assurance activities as part of the APLA Health Quality Management Program
- Review lab results for all patients tested for STIs under the STI testing program within 24 business hours of result availability
- The NP will be expected to see at least 14 patients per full clinic day. The NP will have administrative time amounting to 10% of the work week.
- Other clinic duties will include telephone and in person triage, and seeing same-day or walk in patients. Patients presenting in need of STI treatment or HIV post-exposure prophylaxis will be seen the same day.
- Work with a passion for managing STIs and providing HIV prevention services for a federally-qualified health center population

OTHER DUTIES MAY BE ASSIGNED TO MEET BUSINESS NEEDS.

REQUIREMENTS:

Training and Experience:

Possession of a valid California Nurse Practitioner license with no pending or previous disciplinary action from any state licensing entity. Minimum of 1-year experience managing primary care patients preferred. Must possess a current DEA license and BLS/CPR certificate. Must be eligible to participate in Medicare, Medi-Cal, F-PACT and other federal health programs. Experience working with electronic health records required, eClinicalWorks preferred.
